

Danielmeyer GmbH & Co. KG - Arbeitsplatten

As a company of some 70 years' standing and a specialist worktop manufacturer, now run by the third generation under the management of the siblings Regina Danielmeyer and Rainer Danielmeyer, we have evolved from a craftsman's establishment into a leading-edge "just-in-time" service provider to the kitchen industry.

At the plant in Löhne about 70 employees process worktops and alcove back walls in thicknesses of 15 to 100 mm with a variety of glue-on varieties. Many creative edge profiles are still produced here in true handwork. A qualified, independent team and the modern machine facility guarantee the highest quality and delivery reliability. This allows Danielmeyer to manufacture every worktop in any decor within just a few workdays, no matter how complicated.
